### Briefing Papers

Members have asked that we seriously address the use of agendas – both the length and the volume. One of the ways is to provide certain items in a format. The suggestion is that we will from time to time provide briefing papers for members on issues on which Members need to be informed. This is an alternative to placing items on the agenda, enabling us to focus the meetings on the business in hand.

If Members wish the paper to be discussed it can then be scheduled for a future meeting or individual briefings arranged however, Members must give specific reasons for their request.
