Members					

## 1. Executive Summary

1.1 A report was considered by Cabinet at its meeting on the 7<sup>th</sup> September setting out issues facing the Council's Planning Development Management Service and seeking approval to restructure the service and invest in additional resources to support its improvement. The report was presented in response to identified pressures facing the service and concerns over performance and customer responsiveness. Cabinet duly agreed the proposals, but also asked that a paper be brought back to it in due course to show progress on the changes to be implemented and their impact. This is the first paper of those progress papers which looks at the period since September.

## 2. Recommendations

2.1 That Cabinet notes the performance of, and the progress being made by the Development Management Service in terms of implementing the revised structure and with regard to its improvement programme.

## 3. Background & Issues

- 3.1 DM/Planning is a high-profile service activity with local residents and communities having a keen interest in proposals and planning decisions impacting on their area and amenity. Planning is also a key component of the local economy with housing, employment and other types of development necessary to meet needs. The importance of having an effective and capable planning system is recognised by all levels of government, from national to local as well as private sector industry. To this end planning is one discipline where there are national performance indicators for local planning authorities based on speed of decision making and the quality of decisions and sanctions applied where performance against such indicators is not met.
- 3.2 The DM Service deals annually with a high number of applications. There was an increase of 26% in the number received between comparable periods in 2020 and 2021, however in the last quarter the overall number of applications submitted have reduced between Q1 and Q2 by approx. 18 %. The following table sets out the number of applications received over the last 1.5 years, by quarter and by type:

	Apr20- Jun20 Q1	Jul20- Sept20 Q2	Oct20- Dec20 Q3	Jan21- Mar21 Q4	Apr21- Jun21 Q1	Jul21- Sep21 Q2
Total Applications received	315	366	396	471	471	385
including						
Major applications	11	14	15	15	7	8
Pre app requests	51	54	53	81	67	41
Valid planning appeals	11	4	15	5	6	2

3.3 In terms of Planning Enforcement, the following table shows the number of logged and closed cases per quarter over the last 12 months and current quarter to date/to mid Nov 2021:

Enforcement	New cases opened	Cases closed	% (cases closed/new cases opened)	Ongoing carry over
2020/21 – Q3	41	26	63.4%	118
2020/21 – Q4	44	19	43.2%	143
2021/22 – Q1	68	22	32.4%	189
2021/22 – Q2	49	12	24.5%	230
2021/22 – Q3 (to date)	25	0	0	255*

- 3.4 **Performance.** This is regularly monitored, with 6-montly DM performance Briefing Papers being reported to Overview & Scrutiny. The following tables include details of the number of applications determined and the performance recorded by quarter, split into major and non-major applications from Q3 of 2020/21 to midway in Q3 (up to mid Nov 2021) of 2021/22. This shows:
  - that the Council is performing well against the national indicators; above the national targets for speed of determination (more than 60% for majors and more than 70% for non-major category applications).
  - there has been improvement in the performance from Q1 to Q2 of 2021/22. There remains
    reliance on agreed extensions of time to meet the national indicator targets, however these
    are agreed extensions of time, as 'agreed' in writing with applicants/agents and can be
    calculated positively in the national indicators. This shows the willingness of applicants to
    work with the Council to achieve better outcomes and/or as part of positive engagement in
    the planning application process, as endorsed by national planning policy guidance.

Major Applications	Total received (No)	Total determined (No)	Target Performance <91 days (%)	Actual determined <91 days (No)	%	Determined outside target (No)	%	Extensions agreed (no)	% of total determined
2020/21 Q3	15	4	60%	3	75.0%	1	25%	3	75.0%
2020/21 Q4	15	7	60%	5	71.4%	1	14.3%	4	57.1%
2021/22 Q1	7	13	60%	10	76.9%	3	23.1%	10	76.9%
2021/22 Q2	8	10	60%	9	90.0%	1	10.0%	9	90.0%
2021/22 Q3 (to date)	2	8	60%	6	75.0%	2	25.0%	7	87.5%

## **Non-Major applications**

Non-Major Applications	Total received (No)	Total determined (No)	Target Performance <57 days (%)	Actual determined <57 days (No)	%	Determined outside target (No)	%	Extensions agreed (no)	% of total determined
2020/21 Q3	193	182	70%	135	74.2%	47	25.8%	87	47.8%
2020/21 Q4	201	182	70%	133	73.1%	49	26.9%	83	45.6%
2021/22 Q1	265	178	70%	122	68.5%	56	31.5%	79	44.4%
2021/22 Q2	216	252	70%	211	83.7%	41	16.3%	110	43.7%
2021/22 Q3 (to date)	88	129	70%	108	83.7%	21	16.3%	62	48.1%

- **3.5** Service Improvements. In response to concerns raised about the challenges, performance and customer responsiveness of the Service, an Improvement Plan was produced and is being implemented since the end of 2020. The Plan and updates made thereto are set out in Appendix 1. In summary, the actions that have occurred to date, include:
  - Customers Engagement- Training has taken place with planning staff to impress the importance of good customer care, including keeping applicants and agents abreast of progress with proposals.
  - Via the Cabinet Member, efforts have been made to improve communications between the service and elected members, so that members can engage in a more informed manner with local residents when planning matters arise. This has and will continue to be supplemented by planning member training sessions being scheduled, that are open to all members of the Council to explain planning policy and processes and the role/function of the Council as local planning authority.
  - A revised set of member protocols has been produced to explain the role of members on planning committee and those non-committee members; who as members get involved in matters on behalf of their local residents / applicants. The protocols help to clarify what is and isn't good practice and ensure that members, officers and all other interested parties understand each other's responsibilities.
  - A key team leader vacancy was filled 6-months ago on a permanent basis; they have settled in well and this has brought some much-needed stability and better support to the applications team, helping to build the team morale.
  - Managers in the team were given mentor support and have or are also undertaking corporate management training.
  - Work has progressed on the implementation of the new team structure- following subsequent Council approval of this, market supplements were added to certain posts from October and any temporary posts made permanent; job descriptions were written and/or updated for the new posts to be recruited and those that needed to be, were job evaluated. Meetings have been held with external parties to support an alternative to the norm approach to recruitment and a company engaged to progress this. This is to seek a better reach of applicants and to communicate and stimulate a good response in terms of applicants as part of the recruitment process. The 8 number posts have been advertised internally and are due to go live externally at the end of November, using a microsite approach and targeted advertising.
  - Meetings are being held regularly with IT and customer services, to help clear blockages and/or provide greater support to the Service in terms of performance/efficiencies and enhanced customer engagement; in conjunction with the Building a Better Council project.
  - A planning member training session on Planning Enforcement is scheduled for December and the Enforcement Plan updates are being considered as part of this.
  - Extra interim consultant support has been brought into the planning enforcement team to help progress paperwork in this area, to seek to deal with cases quicker and progress some more major cases.

- 3.6 The planning applications team, however, currently has 4.6 FTE vacancies based on the previous structure and 8.6 FTE based on the approved new structure. Currently, the team has approx. 3.5 FTE consultant officers supporting the team, due to the vacancies, with 1.4 FTE consultant interims in the enforcement team and approx. 2 FTE in the planning officer team; covering a planning officer and a principal officer post. In addition, 2 part time officers within the team have increased their hours for an interim period.
- 3.7 The permanent recruitment process has been progressing since Cabinet approval in September. Council approved the revised structure in October. The new job descriptions and person specifications have been written and job evaluated; where required. The Council has also engaged a specialist recruitment company to support a more enhanced and targeted approach to advertising, in view of the number of posts and to seek to attract more applicants than previous advertising campaigns from the planning team. This includes preparation of a microsite and targeted advertising. The job adverts have been advertised internally and are expected to be live external from the end of November 2021, with the deadline for applicants by early January. Subject to shortlisting applicants, it is hoped that interviews will take place mid/end of January and appointment of posts be in place for April 2022.
- 3.8 In addition to this, further interim support has also been sought for the team, with interviews undertaken with consultants. However, this has proved difficult, due to limited availability of skilled interim senior planning consultants at this time; making it a very competitive market, with contracts being declined after offers have been made. Meetings have also been held with companies who may be able to take on certain application work on behalf of the Council, but they have limited scope and capacity in regard to major application support, but this is being further investigated.
- 3.9 The timescales needed to undertake permanent recruitment and ability to source further senior interim officer support is continuing to place pressure on the team. Therefore, officers remain to carry high workloads, including in particular, at the senior/principal level. The applications team leader is furthermore currently needing to balance a caseload of applications and management of the applications team at the same time.
- 3.10 **Complaints.** The following shows the number of and reasons for complaints in regard to the DM service for the last 1.5 years. This shows that there has not been an overall increase in complaints in respect of the DM service area, the Q2 of 2020/21 and 2021/22 receiving the same number of complaints

	Apr20- Jun20	Jul20- Sept20	Oct20- Dec20	Jan21- Mar21	Apr21- Jun21	Jul21- Sep21
Complaints received	2	6	2	2	1	6
Reason for complaint	Reason for complaint					
lack of response / communication	2	1		2	1	1
objects to outcome	-	4	2	-	-	3
lack of enforcement	-	1	-	-	-	1
complainant wrote to wrong address	-	-	-	-	-	1

3.11 In conclusion, notwithstanding the challenges being faced by the team, performance is shown to be improving and the Implementation Plan and associated actions, as detailed in this report, are having positive effects on the service. Work will continue to be implemented as part of the improvement programme and as part of continual improvement measures (taking on board any national and local procedural and legislative changes that come forward in the planning sphere) within the team and Council-wide. The vital recruitment process is being progressed as a priority with the support of HR, as the additional resource is crucial to continue to improve performance and be more customer centric.

<ol> <li>Stop Service- as it is a statutory function of Council to determine applications submitted under the Planning Acts this cannot be done.</li> </ol>							
2. Shared service or staffing - opportunities to share staff have been previously explored on a county-wide basis but overall lack of capacity and appetite from many Council's. Problems of recruiting are affecting other neighbouring authorities so sharing staff unlikely to be workable or viable.
