# Shenstone Parish Council

**Lichfield District Council are undertaking a community governance review regarding possible changes to Parish Councils exploring whether there is a need for changes to the size and boundaries of Parish Councils.** Since its formation the area covered by Shenstone has grown massively and what were three small communities have now become far and away the largest Parish Council of the 25 in the district. Should the Lichfield District Council consultation agree to a new Stonnall and Lynn Parish Council it would probably be the 5th largest

in the district. For some time, many residents have felt the time has come for Stonnall and Lynn to have its own parish council that can be more focussed on the needs of our village. We are a very special community with a Church two Village Halls, a playing field, shops, a pub, three restaurants, a school, an allotment, a web site and a mass of Community groups that meet regularly including a Roads group that works to improve traffic safety, also our own Lynn and Stonnall Village Plan.
